TOMORROW'S TITANS 2016

IN ASSOCIATION WITH

Federico Riggio

**Portfolio Manager and Partner
Kairos Partners
London**

The Kairos Pegasus Fund, run by Federico Riggio, launched on 1st January 2014 with approximately EUR40 million of partner's capital. Performance that year generated +52.99 % with 2015 returning +6.65 % and 2016 is +21% net as of October 2016. This performance has seen assets grow to over EUR450 million. The high conviction, concentrated strategy pursues a soft catalyst approach to investing in special situations and aims to profit from both long and short positions. The Pegasus team, including five analysts, seek out misunderstood situations in pan-European equities markets. The strategy has produced high double digit returns since its inception with limited correlation to the market of reference. It had an exceptional year in 2014, and has performed strongly again in 2016 generating alpha on both the long and the short side of the portfolio. Riggio has spent his whole career with Kairos. He started analysing pan-European equities in London before joining Massimo Trabattoni to help build the Italian equities business for Kairos. Riggio graduated in Finance from Milan's Bocconi University and is a partner of Kairos.
