

Beyond CSRD: our sustainability commitment in 2025

Introduction

Further details

- Section BP-1 SS 2025
- Cons. Financial Statements 2025

Starting in 2025, Anima falls within the scope of entities required to submit mandatory reporting pursuant to Article 17, paragraph a) of Legislative Decree 125/2024, which implements Directive 2022/2464/EU on corporate sustainability reporting, known as the **Corporate Sustainability Reporting Directive (CSRD)**. Therefore, the **2025 Sustainability Statement** is, for the first time, an **integral part of Anima's Consolidated Financial Statements**, available in the "[Investors - Financial Statements and Reports](#)" section of the institutional website ([link](#)).

This document, covering the year ended 31 December 2025, is intended to provide our Stakeholders with **additional information beyond the contents of the 2025 Sustainability Statement**, prepared in accordance with the European Sustainability Reporting Standards (ESRS), in order to ensure continuity with the information published in previous years and with a view to transparency. For further information on the topics presented in the following slides, please refer to the references shown at the top right of each slide.

Accordingly, to gain an overall view of Anima's sustainability performance in 2025, please **consult this document together with the Consolidated Financial Statements as at 31 December 2025**.

Anima Governance as at 31 December 2025*

Further details

• Section GOV-1 SS 2025

The corporate governance structure adopted by the Company has **sustainable success as its objective**, i.e. the creation of long-term value for shareholders while taking into account the interests of other Stakeholders, aware of the importance of transparency in choices and decision-making processes, as well as the need to establish an effective internal control and risk management system.

Governance plays a fundamental role in driving the widespread dissemination of a sustainability culture and ESG topics within the organization.

50%

of Anima Holding Board members are women

70%

of Anima Holding Board members are independent

Sustainability governance

assigned to a dedicated board committee (Controls, Risk and Sustainability Committee)

Number of meetings and average attendance rate of Anima Holding's highest governance bodies in 2025:

	2025	
	Number of meetings	Average attendance rate
Shareholders' Meeting	2	85%
Board of Directors	14	88%
Controls, Risks and Sustainability Committee	8	100%
Appointments and Remuneration Committee	4	100%
Related Parties Committee	2	100%
Board of Statutory Auditors	21	100%

Anima

- Anti-Corruption Management System according to ISO 37001
- Integrated Management System ("IMS"), according to ISO 14001 (Environment) and ISO 45001 (Occupational Health and Safety)
- Quality Management System according to ISO 9001 (Castello SGR only)
- ESG criteria integrated into remuneration policies (e.g. gender pay gap, Anima Holding ESG rating)
- Policies in place to safeguard the various areas of sustainability

SGRs

- application of the six United Nations Principles for Responsible Investment and submission of the Transparency Report
- application of ESG Policies relating to investments
- ESG Committees of Anima SGR and Castello SGR supporting their respective Boards in ESG assessments and decisions

Self-assessment of administrative and control bodies

Further details

- Section GOV-1 SS 2025
- Section GOV-2 SS 2025

The internal Regulation on Corporate Governance provides that **the Board of Directors carries out an annual self-assessment** of the size, functioning and composition of the Board itself and of the board committees. This process considers elements such as professional characteristics, experience including managerial experience, gender and tenure, **also in relation to the criteria of the Diversity Policy**. The process is coordinated by the Chair of the Board and, as a rule, is carried out with the support of an independent consultant identified by the Board on the proposal of the committee responsible for nominations. The results are formalized in a specific document submitted to the Board, including strengths and areas for improvement, as well as any recommended corrective actions.

Similarly, the **self-assessment process regarding the composition and functioning of the Board of Statutory Auditors** is carried out by the Board of Statutory Auditors itself, coordinated by its Chair and with possible support from an external consultant (usually the same one chosen for the Board self-assessment). The results are then formalized in a specific document, also submitted to the Board of Directors.

Self-assessment of the Board of Directors

In continuity with previous years, the Board of Directors, through a process coordinated by the Chair and supported by the Nomination and Remuneration Committee, carried out its **annual self-assessment** in early 2026 with reference to 2025, **covering the size, composition and functioning of the Board and its Committees** through an online questionnaire completed by each Board member, supplemented by individual in-depth interviews.

The results showed that the Board continues to operate consistently with its mandate and that there is broad and general satisfaction with Board dynamics. Among its strengths, the management of the appointment of the new Chief Executive Officer, Saverio Perissinotto, was positively assessed: the Board supported this process consistently with the new Group context, ensuring continuity of direction and governance solidity also during the transition phase. A path of progressive alignment with the Banco BPM Group was also highlighted, while from an evolutionary perspective **the possibility emerged of strengthening the ESG approach as a lever for value creation and increasing visibility over social and DE&I initiatives**, monitoring their continuity and results over time.

Self-assessment of the Board of Statutory Auditors

The results of the Board of Statutory Auditors' self-assessment process for 2025, carried out with the support of the Corporate Affairs Department and presented and discussed with the Board of Directors, show a **positive picture of the functioning of the control body**. The Board of Directors acknowledged the positive findings of the report, recognizing the control body's merit in having performed constant, careful and proactive oversight of the administrative body, board committees, management and corporate structures.

Business ethics

Further details

• Chapter G1 SS 2025

No
legal action suffered for anti-competitive behavior,
antitrust and monopolistic practices

No
reports received for breaches of the
Code of Ethics and Conduct

No
reports of wrongdoing received
through the Whistleblowing channel

Commitment to fighting corruption

Code of Ethics and Conduct, Organization, Management and Control Model pursuant to Legislative Decree 231/2001, Anti-Corruption Policy, mandatory anti-corruption training for all employees, ISO 37001 Anti-Corruption Management System

Whistleblowing

The Whistleblowing Policy provides for:

- potential whistleblowers: current or former employees, candidates, shareholders, persons with administrative functions, self-employed workers, collaborators, freelancers and consultants, volunteers and interns
- confidentiality of the whistleblower's identity, protection against retaliatory and/or discriminatory conduct

Responsible supply chain management

Anima brings its Code of Ethics and Conduct, together with the Organization, Management and Control Model pursuant to Legislative Decree 231/2001, to the attention of relevant suppliers and reserves the right to terminate relationships with those who do not comply with the principles and behaviors described in its Code of Ethics and Model 231

Approach to taxation

Further details

- Chapter G1 SS 2025
- Cons Financial Statements 2025

In line with Anima's focus on respecting the principles of ethics and integrity in conducting its business, Anima also adopts a **highly transparent approach to tax matters, maintaining continuous dialogue with the tax authorities**. Anima's tax policies are determined by the Board of Directors and applied also with the support of external tax advisors.

Tax distribution in Italy*:	Unit of measure	2025	2024
Revenue from sales to third parties	€ thousand	€1,342,508	€1,291,661
Revenue from intragroup transactions with other tax jurisdictions	€ thousand	- €	- €
Profit/loss before taxes	€ thousand	€381,853	€321,803
Tangible assets other than cash and cash equivalents	€ thousand	€22,163	€27,776
Corporate income taxes paid on a cash basis	€ thousand	€149,580	€75,404
Income taxes of companies accrued on profit/loss	€ thousand	€122,277	€111,395

Further tax information:	Unit of measure	2025	2024
Expected tax rate	%	29.57%	29.57%
Tax rate actually paid	%	29.25%	31.66%
Difference between tax rate actually paid and expected tax rate	%	-0.3%	2%

The 2024-2028 Sustainability Plan: introduction

The Plan identifies two Pillars (Corporate and Responsible Investments & Products), with the Corporate Pillar in turn divided into four macro areas of action on which Anima focuses its activities: Environment, Community and Employees (Social), and Governance & risk management (cross-cutting across the first two).

Our objectives:

Reduce direct and indirect environmental impacts

Raise employee awareness and consolidate the integration of environmental and climate risks and topics into the Board's agenda

Provide support to our Stakeholders

Promote transparency, protect privacy and data security

Attract talents, enhance and develop employee skills

Promote diversity and equal opportunities and excel in employee experience

Promote customer satisfaction and the quality of products and services

Consolidate the integration of ESG criteria into investment decisions

helps us support the following SDGs:

The 2024-2028 Sustainability Plan: highlights

Some of the initiatives we implemented:

Environment

- new LED lighting system
- Employee awareness on environment and climate
- 100% recycled and certified paper
- 🔍 replacement of uninterruptible power supplies (UPS)

Pillar 1

Thanks also to the **replacement of UPS systems** in March 2023, the related **consumption at the Milan headquarters decreased by 21.8%** in 2025 compared to 2022

Social

Initiatives for employees:

- welfare contributions, health policies, insurance, supplementary pension schemes
- e-learning platform
- remote working agreement
- 🔍 organization of sports tournaments

In spring, the **corporate padel tournament** took place; participation fees were donated to **Fondazione Opera San Francesco per i Poveri**

Governance & Risk management

Cross-cutting area

- implemented Banco BPM's Training and Induction Plan, also addressed to members of Anima's administrative bodies
- 🔍 launched the new Agorà intranet platform to improve internal communication

Launched "**conoscere per collaborare**", a content series designed to facilitate orientation within Anima's structure by exploring roles and functions

Pillar 2

Responsible investments

- creation of the Anima Net Zero system, composed of three funds
- PAI reporting
- 🔍 engagement on ESG topics

Anima SGR and Kairos led an engagement initiative on "**Attraction policies and growth paths for young people in Italy**", joined by additional investors and institutional actors, members of Forum per la Finanza Sostenibile

92%

Employees with permanent contracts

21

Employees working in STEM activities, including 5 women

<2%

Employees involved in reduction plans in the 2023-2025 three-year period, both overall and annually

The HR Plan

In 2023, Anima adopted a comprehensive plan of initiatives ("**HR Plan 2024-2028**"), consistent with the Guidelines of the Business Plan and taking into account the sustainability strategy. The HR Plan contains four macro-objectives, identified from an analysis of corporate needs and market trends, in turn linked to twelve macro-initiatives to be implemented during the Plan period, through which progress is monitored.

Initiatives	Objectives			
	Attract and retain talent	Develop People	Excel in terms of employee experience	Promote diversity and inclusion

02 Internship Program				
03 Career and succession plans				
04 New LTI plan				
05 Training				
06 Coaching and mentorship				
07 Employer Branding				
08 On-boarding and follow-up				
09 Corporate intranet				
10 Welfare				
11 Gender balance				
12 Volunteering				

Further details

- Section S1-5 SS 2025
- 2024-2028 Sustainability Plan

Welfare measures for employees

- accident and illness insurance;
- Welfare Plan for access to tax-free social and care services;
- free tax assistance service;
- supplementary pension system with company contributions and favourable conditions.

- flexible entry and lunch-break hours;
- framework agreement for remote working (so-called smart working).

→ *In 2025 the average office attendance rate was 59%*

- healthcare;
- disability/invalidity coverage;
- flu vaccination;
- psychological support in partnership with Serenis;
- sports medical examination at a discounted price and carried out at Anima's premises;
- 4 hours per year of paid leave for family members' medical visits and unlimited hours for personal medical visits;
- affiliated company gym.

- mobility agreement (long-term leasing of new low-environmental-impact cars, e-bikes, subscription to Milan public transport).

Work-life balance

Further details

• Chapter S1 SS

Some of the initiatives we implemented:

Sports initiatives

- Affiliated company gym
- Participation in the 7-a-side football tournament bringing together representatives of Italian banks and financial institutions
- 🔍 Corporate padel tournament

🔍 At the beginning of 2025, the second edition of the corporate padel tournament took place, with funds donated to Fondazione Opera San Francesco. In autumn, registrations were collected for the third edition of the tournament

Home-office commute

- 🔍 Agreements with Azienda Trasporti Milanesi S.p.A. (ATM) for the use of BikeMi, the Municipality of Milan bike-sharing service, and for subscribing to annual urban/extra-urban public transport passes at reduced rates with deferred payment during the year

🔍 Also in 2025, a survey on transport demand analysis was conducted to identify Employees's main home-office commuting modes

Work-related stress questionnaire

- 🔍 Each year, Employees receive a questionnaire on work-related stress that measures their perception of organizational and psychosocial risk factors, in order to prevent discomfort and inefficiencies

🔍 It measures elements such as workload, autonomy and interpersonal relations. Based on the feedback received, Anima assesses the activation of training courses and other initiatives supporting employee wellbeing

Breakdown of main home-office commuting modes

Parental support

Further details

• Section S1-11 SS 2025

For all types of Employees
(including fixed-term and
part-time)

Welfare measures provided by Anima

Parental leave

Anima provides parental leave in line with the provisions of the National Social Security Institute (INPS):

- **five months of paid maternity leave** for new mothers, paid at 80% of regular salary by INPS and topped up to 100% by the company;
- **ten paid days for new fathers**, paid at 100% of regular salary by INPS, which Anima has decided to **supplement with three additional paid days** at its own expense;
- **three months of compensated parental leave for each parent** paid at 80%, not transferable to the other parent, and a further three months compensated alternatively between them, for **a maximum total compensated period between parents of nine months**, paid at 30% by INPS

Development and growth

Further details

- Section S1-4 SS 2025
- Section S1-13 SS 2025

Nearly 19 thousand hours of training delivered, including almost 2,000 on Health and Safety

€385 thousand invested in training

Employee onboarding and growth

In 2025, the fourth and fifth editions of the “Anima Internship” program were held, through which 33 interns were identified and placed in various corporate functions via dedicated assessment days.

Anima also uses job rotation to manage certain vacancies, taking organizational situations into account and thereby developing employee skills across functions. In 2025, 6% of open positions were filled by internal candidates.

ESG training courses available on Anima's e-learning platform

Sustainability Report and Sustainability Plan

The ESG investment process at Anima

Climate: Net Zero Objective

Sustainable Finance

Employee engagement initiatives

Inclusivity and Inspiration: valuing diverse perspectives to foster openness and learning

Volunteering

“The Value of Giving”: launch of the corporate volunteering program in collaboration with associations that won Fondazione Anima calls for proposals

Leaders@Anima

Dialogue between young professionals and Leaders from corporate and non-corporate organizations

Valore D

- bimonthly newsletter: sending all colleagues content from the Valore D catalogue
- participation of 3 colleagues in Inclusive Leadership paths (Young, Middle, Senior)

Wellbeing and Listening: promoting balance and wellbeing in daily working life

Partnership with Serenis (psychological wellbeing)

- 4 free sessions with a Serenis professional
- 1 webinar per month on topics of general interest

Wellbeing Manager

Introduced the Wellbeing Manager role with the task of:

- promoting listening
- making people feel valued and included
- fostering wellbeing
- strengthening corporate culture

Understanding: listening and clarity to foster collaboration and informed decisions

Feedback Manifesto

Document guiding our daily actions, promoting trust, clarity and authentic dialogue within the performance management process

ESG reporting in pills

Editorial plan focused on ESG Reporting to promote greater internal awareness of commitments and results in this area

«Conoscere per collaborare»

Publication of 15 video interviews to promote internal knowledge of corporate roles and functions

Communication: sharing a common place to talk about goals, initiatives, projects and people

Launch of the new Intranet (Agorà)

Shared work platform with quick and intuitive access to information and work tools, to facilitate internal communication

Belonging: strengthening the sense of community and the bond with the organization

Internship and Buddy program

- two editions of the Internship Program were held, involving the entry of interns into various corporate functions through dedicated assessment days
- support from a Buddy to facilitate entry into the company

Welcome to new colleagues

Monthly publication of internal news to welcome new hires and encourage everyone's welcome

Online platform dedicated to the distribution of Multiline Managed Portfolios for Anima SGR's Private clients

Artificial intelligence

AI tools used both to support discretionary management activity and direct management of three investment funds

Customer Service

Customer service can be contacted directly without an automated answering system; a CRM (Customer Relationship Management) system is also in place, enabling response times to be reduced and the history of relations between the client and the company to be tracked

Information security and data protection

Information security and data protection

Governance

On IT topics, in 2025 3 internal audits were carried out, performed every five years

Highlights

Newsletter with current topics and practical tips

Attack simulations to test safeguards

More than 1,700 reports received from colleagues

Mandatory training for employees

What about the data processed by suppliers and business partners?

Specific data protection programs are dedicated to Anima's suppliers and business partners, integrating personal data protection governance systems across the entire operating chain (therefore also including third parties that process data on behalf of the owner).

In practice, these programs include:

- I. Preliminary assessments (due diligence) on suppliers, to verify compliance with security and privacy requirements;
- II. Contractual formalization through specific agreements (e.g. Data Processing Agreement under Article 28 of the GDPR), regulating obligations and responsibilities;
- III. Continuous monitoring and periodic audits to ensure that required standards are maintained over time;
- IV. Risk management and supplier classification, with particular attention to critical parties;
- V. Incident management procedures, including any data breaches.

The objective of these programs is to ensure that service providers and business partners adopt appropriate technical and organizational measures, reducing the risks of data breaches and ensuring compliance with Regulation (EU) 2016/679 (GDPR) for the entire duration of the contractual relationship with Anima.

Collaboration with organizations and institutions

Relations with financial institutions play an important role for Anima, in order to comply with legal obligations and respond to their requests. The dialogue, advisory and information relationship built over the years with the various associations makes it possible to manage the evolution of different situations and the rapid succession of regulatory and sector changes.

In July 2023, [Fondazione Anima](#) was established, mainly to promote financial awareness initiatives consistent with Anima's expertise.

Objective: make the financial sector more accessible

Since its establishment, Fondazione Anima has carried out the following activities:

2023

A **qualitative and quantitative research study** was published on Fondazione Anima's website to identify **Italians' money-management habits**, in order to guide the future actions toward the targets most in need.

2024

In July 2024, **two calls for proposals were published** to support financial awareness projects, one targeting **"low-income individuals"** and one focused on **women's empowerment**, also thanks to the contribution of focus groups held with some colleagues.

In November 2024, Fondazione Anima's Board selected the **two winning projects of the calls**. In December 2024, the Board also resolved to **support two additional projects** with dedicated funding outside the calls' scope, bringing the total financial commitment across the four projects to around €160,000.

2025

In August 2025, **two new calls for proposals were published** to support financial awareness projects, with the **same targets** as the 2024 ones, in order to promote continuity in Fondazione Anima's support areas.

In December 2025, the Foundation's Board selected the **two winning projects of the 2025 call for low-income individuals**, with a financial commitment of around €95,000.
